CERTIFICATES

⚭ Java Basics and OOP

⚭ Data Scientist (Python)

⚭ Data Analyst (Python)

⚭ Amazon Web Services Developer

⚭ Data Structures & Algorithms

⚭ Machine Learning

⚭ Python Core

⚭ SQL

REWARDS & RECOGNITION

🏆 3X Star Performer of the Quarter

🏆 Best Tech Support

🏆 QA Mentor of the year

🏆 Best testing team of the year

🏆 Client & Leadership Appreciation

JAGDISH SINGH BHATI

SOFTWARE TEST ENGINEER

PROFILE SUMMARY

- 9 years of experience in **QA Software testing** by performing automation & manual tests in Jenkins (**Python** & **Java**) on **Windows** & **Linux**.
- Experience in **UI/UX testing** in Selenium-Java and **API testing** in Python (Pytest framework) and Postman too.
- Provided **QA support** to all regions in the world such as; **EMEA, JAPA, US (Domestic), LAC**.
- Professional exposure of **SDLC** & **STLC** approaches of agile in scrum and BDD.
- Executed **50000+ test cases** and saved more than **1 billion USD** of organizations by preventing from re-work and maintaining quality & brand.
- Delivered **40% more quality** product by covering **100% scope of testing**.
- Keen to learn new technologies while working in both team or self-directed environment.

EMPLOYMENT HISTORY

Senior Software Test Engineer (Project Leader)

R Systems International, Noida – India   *Mar 2022 – Present*

➢ Worked closely with the product owner to execute Pre-SIT, SIT and implementation activities and daily code review of each PR requested on **Git**.

➢ Created automation pytest framework from scratch, implemented new test scripts to automate the test scenarios and integrate with continuous integration tool – **Jenkins**.

➢ Created Jenkins pipeline that gets triggered when developer puts a new debian package into the targeted directory and post execution, the html report sends out to the leadership team.

➢ Prepared **Test artifacts** as part of test execution such as test strategy, test plan, test scenario, test case, functional user guide, script documentation (installation guide) and html test reports etc.

➢ Experienced in **media** domain thus, got an opportunity to learn more about tools such as **ffmpeg, mediainfo, MTP testing, TCP/UDP**.

➢ Automated more than **1000 test cases** to test multiple product.

Software Test Engineer (Tech Analyst)

American Express, Gurgaon – India   *Jan 2016 – Jan 2022*

➢ Experienced in Agile methodologies, created hybrid automation **TestNG**, **Junit** and **Pytest** frameworks from scratch and developed regression test cases for **client server** and **web-based application**, Rest API, **mobile applications testing**.

➢ Created CI/CD pipeline on Jenkins for validating build and executing test cases.

➢ Experienced in mobile application testing tools such as **Appium** and **UIAutomator**.

➢ Reviewed test procedures, developed test scripts and documentation for various audiences.

➢ Checked the bug tracking system for the fixed errors and documented errors on **Jira & Rally.**

➢ Implemented automation scripts for Cucumber framework using Gherkin scripting language in Python & Java (**Pytest** & **TestNg** framework respectively).

➢ Experienced in API documentation like **Newman** & **Swagger**.

➢ Experienced in **communication testing & development** such as emails, letters, notifications where I got an opportunity to develop and change layout of 1000+ emails using in-house tool.

➢ Automated more than **50000 test cases** to test multiple product.

Team Coach Production

FIS, Gurgaon – India   *Jan 2013 – Jan 2016*

➢ Mentored and guided teammates to foster proper completion of assigned duties and participated in team-building activities.

➢ Got opportunity of UAT testing where done mostly manually testing and upskilled myself.

EDUCATION

Master in Computer Science (major in Artificial Intelligence)

Jain University   *Oct 2021 – Oct 2023*

➢ Semester – I
  Earned distinction in my first semester where, I have learnt few topics such as;
    o Data Structures with Algorithms
    o Computer Organisation & Architecture
    o Mathematical Foundation for Computer Application
    o Data Communication & Computer Networks
    o Operating System & UNIX Shell Programming

Bachelor Degree

Manav Bharti University   *Jul 2010 – Jun 2013*

➢ Learnt fundamentals of business management that includes advanced courses such as Accounting, Economics, Finance, management, marketing, strategic management, supply chain management and other key academic subjects associated with the academic disciple of business management.
